

DONT WALK WELD™

ArcReach® Product Selector Guide

The full range of ArcReach® benefits (including CLC™ and AWW™) are only available when ArcReach accessories are paired with **XMT 350 FieldPro welders**. ArcReach remote control functionality is available when paired with **previous-generation ArcReach machines or ArcReach-capable engine-driven welders**.

Process	XMT® 350 FieldPro™ 907730	XMT® 350 FieldPro™ with Polarity Reversing 907731	XMT® 450 CC/CV ArcReach® 907481003 Dimension™ 650 ArcReach® 907617001	
Stick/TIG	ArcReach Stick/TIG Remote 301325 (For general all-purpose arc)	ArcReach Stick/TIG Remote with Polarity Reversing 300934 (Tailored arc designed for bevel welding with XX10 and XX18 electrodes)	ArcReach Stick/TIG Remote 301325	ArcReach Stick/TIG Remote 301325

Carbon Arc Gouging	ArcReach Stick/TIG Remote 301325	ArcReach Stick/TIG Remote with Polarity Reversing 300934	ArcReach Stick/TIG Remote 301325	ArcReach Stick/TIG Remote 301325
	Additional Benefits Adjust While Welding (AWW) Auto-Process Select™ Front Panel Lock Out		Additional Benefits Auto-Process Select™ Front Panel Lock Out	Additional Benefits Auto-Process Select™ Front Panel Lock Out

ArcReach® Standard

Trailblazer® 325 gas and diesel
(excludes battery charge model)

Big Blue® 400 PipePro®

Big Blue® 600 Air Pak™

Big Blue® 800 Duo Pro

Big Blue® 800 Duo Air Pak™

ArcReach® Optional

Trailblazer® 325 LP

Big Blue® 400 Pro

Big Blue® 500 Pro

Big Blue® 600 Pro

Visit MillerWelds.com for specific stock numbers.

Cable Length Compensation (CLC™): Makes proper setup of weld parameters faster by automatically adjusting voltage based on weld lead length. This ensures that the voltage a welder sets is the voltage they get – even hundreds of feet away from the power source.

Adjust While Welding (AWW™): ArcReach® technology increases arc-on time and Adjust While Welding technology allows more work to get done because welders can make adjustments at the wire feeder or at the remote – they don't have to walk to the power source to make parameter changes.

Process

Stick
TIG
Flux-cored (Self- or Gas-Shielded)
MIG/Pulsed MIG/RMD
Carbon Arc Gouging

Common Polarity

Electrode +
Electrode –
Electrode + or –
Electrode +
Electrode +

NOTE: ArcReach Smart Feeder works for electrode + processes only.
