

Digital Elite™ Series

Auto-Darkening Welding Helmets

Welding Safety and Health 

Quick Specs

Viewing Area
59.48 sq. cm (9.22 sq. in.)

Operating Modes
Weld, cut, grind and X-Mode™

Shades
Weld: 8–13
Cut: 5–8

Sensors 4

TIG Rating 5 amps and below

Switching Speed 1/20,000 second

Weight 510 g (18 oz.)

NEW!

ClearLight™ Lens Technology optimizes contrast and clarity in welding and light states. 1/1/1/2 optical clarity rating allows for a lighter light state while not welding — keeping the helmet down — maximizing safety and productivity.

Four arc sensors and four modes: weld, cut, grind and X-Mode. X-Mode prevents sunlight from darkening the lens before welding starts and low-amperage lens opening from obstructed sensors.

Headgear provides extensive adjustability settings and a pivoting top for better fit and comfort.

Digital controls easily allow welder to adjust shade, delay and sensitivity.

Auto-on/off power control triggers lens at the strike of an arc.

Meets ANSI Z87.1+, CSA and CE standards.

Optional helmet lighting accessory kit includes two lights (one for each side) and all required mounting hardware.

TRUE BLUE
3YR. WARRANTY

Auto-darkening lens is warranted for three years.
