

# Welding Automation

## Robotic Cell Rental

### Need Productivity NOW? Rent a Robot Cell from Miller

- Miller PerformArc robotic welding cells increase productivity; 3 to 1 vs. manual welding on the right application.
- Want to try robotic welding without the commitment and risk of buying? Rent a Miller PerformArc from us.
- Put one to work for you. Monthly rental fee is approximately 5% of the system list price.
- **Single Source:** Miller – One Call
- **Safe:** Fully RIA compliant
- **Fully Assembled:** Add Power and Go
- **Flexible:** Easily move with a forklift

### Miller Specialists are available for

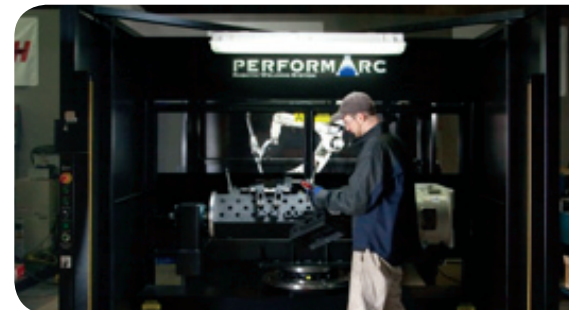

- • Training and Installation
- • Applications and programming

### Rent for only the time you need it

- • Great for quoting short run jobs
- • Return the system if your job ends
- • Preprogrammed parts
- • Quick delivery
- • Overcome fears of automation
- • Overcome barriers to entry into automation
- • Low risk
- • No capital investment required

### Robotic Cell Rental is Ideal for:

- • First-time buyers
- • Job shops
- • Customers with sudden need and are unable to quickly justify a capital expenditure
- • Customers with limited contracts
- • Customers with 3D models of their parts

## Grow with a Trusted Partner

- Build residual value faster when you use ITW Welding components

Miller Electric®

Hobart Brothers

Panasonic

Tregaskiss™

Maxal®

## Program Details

- Your Miller representative will review the required rental agreement.
- Training, installation, and programming services are available and purchased separately.
- Customer pays freight both ways.
- A security deposit equal to three months' rent is due before shipment, and is refunded after return of the system.
- 3 month minimum rental on most systems.
- Residual value accrues with your rental payments at a faster rate if you commit to ITW welding consumables, which can be redeemed towards purchase of your system.
- For full details, email us at [MWAsales@millerwelds.com](mailto:MWAsales@millerwelds.com) or contact your local Miller sales representative
