

# TIG Welding Gloves

Issued October 2020 · Index No. AYM/48.0 UK

**Welding Safety  
and Health** 

## Quick Specs

### Materials

Goat grain leather  
Cow split leather  
Kevlar® thread

### Standards

EN 420  
EN 388:2016  
EN 407  
EN 12477:2001

**Category** II

**Size** 8-12

**Packaging** 12 (pack) / 60 (box)

High Quality

**Kevlar®**

**Miller® gloves are designed to endure daily abuse prevalent within welding environments. Carefully selected materials and craftsmanship result in a glove that welders will want to wear, reducing the risk of hand lacerations and boosting productivity.**

Miller® TIG Welding gloves made from goat grain leather, with the upper hand and cuff in cow split. Unlined. The glove is sewn with strong and heat resistant Kevlar® thread with double stitching at exposed areas. Extra reinforcements in both the thumb and the full index finger for longer life. Elastic seam at the wrist for a better and safer fit. Goatskin leather is both thin, supple and durable while the upper hand in cow split provide extra heat resistance.

Good dexterity from the goatskin pal and fingers combined with better radiated heat protection in the cow split back. Perfect for welding at medium to higher amps.
